

Golden Ratio

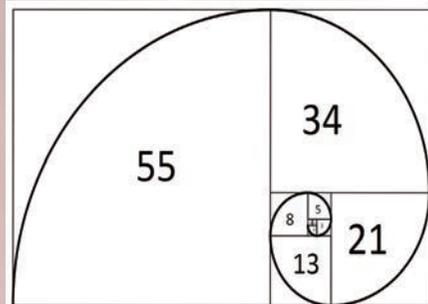

Christian Piaget
Es à la Ligne
Conception
Frank Miller

Use:

Position Golden Ratio with its openings (the lines connecting the coils) along the north-south axis. As a result, it will harmonise and dynamise your living or work space.

Golden Ratio generates a wide range of beneficial frequencies whose action may go as far as producing a light distortion or a flux around it.

Its diffusing action is not limited to just a room as it will propagate to the surroundings over time and it will also balance all magnetic and gravitational elements. Golden Ratio does not require maintenance. Its batteries do not need replacing.

Golden Ratio

In mathematics, the golden ratio is also known as the golden number, the Fibonacci series or Fibonacci frequency (1,618). Golden Ratio is a generator of subtle waves known as plasma, which is the fourth state of matter after solid, liquid and gas. Albeit invisible, plasma is everywhere around us.

Golden Ratio comprises eight coils placed over four levels. It is inspired by the Keshe technology, which is based on the Golden Number. The coils are powered by batteries formed by a mixture of copper, zinc and an M-State element electrolyte.

The coils on the four levels are aligned so as to emanate a wide spectrum of dynamising frequencies.

Available in several colours:

Creator

Frank Miller was born in Meyrin (Switzerland) in 1983. He currently lives in Vernay, in the canton of Fribourg. He is married and a recent father of a daughter

With a major in polymechanics, he started as an independent entrepreneur and then opened his own online store in 2008. Over the years, he developed a growing interest towards subtle energies.

At the beginning of 2016, he developed and started practicing oscillo-therapy (dynamisation, water structuring and creation of M-State elements).

He used his skills and inspiration to create Golden Ratio, which is manually assembled in Switzerland. 

Christian Piaget and Frank Miller met at a geobiology meeting. The friendship that ensued from that led to the conception and the launch of Golden Ratio.

Price : CHF 599.- Available in several colours

Sunset

Magic at sunset,
Shining light
Radiating with marvels,
With fascinating beauty

Almost still,
The harmony is perfect,
Fine colours shine
Before my eyes

Its fire irradiates,
A dynamo
Setting life in motion.
Such a beautiful picture!
